About this book

This book is by Canberra Community Law.

When you see the word **we**, it means Canberra Community Law.

Easy Read

This is an Easy Read version of our Disability Action and Inclusion Plan.

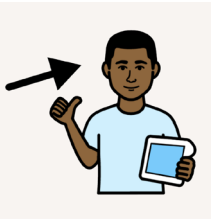
We call it **the plan**.

The plan says what we will do for people with disability living in the ACT.

What we believe

We believe people with disability should

- be treated fairly



- make their own choices

- take part in work and community life

- get the help they need

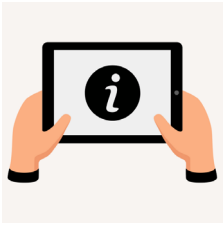
- live a good life.

We support Aboriginal and Torres Strait Islander people with disability.

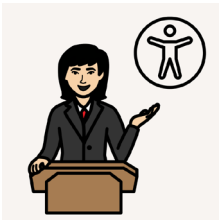
We know Aboriginal and Torres Strait Islander people can face more barriers.

We will listen to Aboriginal and Torres Strait Islander people and include them in our work.

Our plan has 5 parts



1. Information and communication



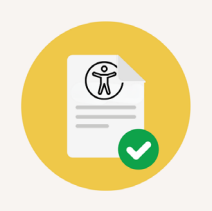
2. Education and guidance

3. Identification, screening and assessment

4. Better service delivery

5. Data, research and review

1. Information and communication



We will

- make brochures and our website easier to read

- use pictures and plain words

- make information for Aboriginal and Torres Strait Islander people

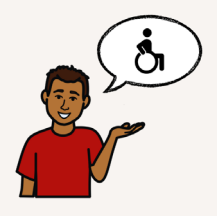
- teach our staff how to help people with disability

- share news in better ways so fewer people miss out.

2. Education and guidance

We will

- teach our workers about disability



- run at least 2 training sessions each year on disability topics

- tell new workers about our plan when they start

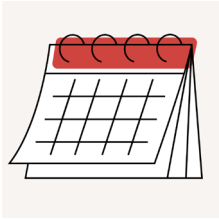
- teach other legal workers how to support people with disability

3. Identification, screening and assessment

We will

- train staff about **disability identification**

- train staff about different access needs



- do staff training about disability identification by December 2026.

Disability identification means we find out if somebody has a disability and needs support.

4. Better service delivery

We will

- ask people with disability what they think about our services

- use feedback from people with disability to make changes

- support our staff who have disability

- hire people with disability

- bring on volunteers with disability

- work with businesses led by people with disability.

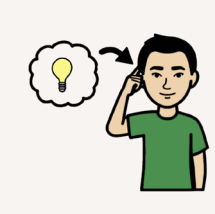
5. Data, research, review

We will

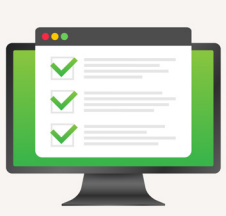
- help change the law to support people with disability

- collect good information about who we help

- start a Disability Advisory Group by August 2025



- check how we are doing over time



- tell people what we are doing in our reports.
